

ENVIRONMENTAL MANAGEMENT SYSTEM: Policy

ENVIRONMENT POLICY

Maestro Pressure Coolers Ltd is committed to reducing the impact on the environment of its operations. This commitment extends to our site in Thamesmead and during business activities away from that site.

Concern for the environment will be a fundamental part of decision making in all aspects of Maestro Pressure Coolers Ltd activities including investment and allocation of resources. Maestro Pressure Coolers Ltd have implemented an Environmental Management System appropriate to our Environmental Impacts.

Maestro Pressure Coolers Ltd will aim to:

1. Source, design, assemble and distribute our products in a way that contributes to lowering energy usage, carbon emissions and waste throughout the entire supply chain.
2. Reduce the use of raw materials through awareness/training and raising the energy efficiency of our operations.
3. Remain committed to ensuring, as a minimum, compliance with all applicable legal requirements and with other requirements to which Maestro Pressure Coolers Ltd subscribe which relate to our environmental aspects.
4. Apply Risk Management Techniques to identify and mitigate environmental risks and impacts.
5. Consider key suppliers' environmental policies and credentials as part of the process for their evaluation and selection.
6. Monitor and report the environmental impact of our operations.
7. Remain committed to strive for continual improvement and prevention of pollution through the setting and reviewing of objectives and targets.

This policy, documented procedures, supplementary procedures and documentation have been approved by the undersigned. It is the express responsibility of all senior staff to ensure that Maestro Pressure Coolers Limited personnel are aware of and work to this policy of continual improvement of environmental performance. Environmental objectives and targets will be subject to regular review in addition to formal review at annual Management Review meetings.

Approved 
Managing Director
