TECHNICAL DATA SHEET

DRINKING FOUNTAIN MODEL RDF90

Suggested Specification

Contractor will supply a recessed stainless steel drinking fountain. The fountain will be fitted with a chrome-plated self-regulating bubbler and removable access panel. The fountain will be Maestro model RDF90.

General Description

A recessed stainless steel drinking fountain with a heavy chrome-plated push button type self-regulating bubbler. With the option of fitting a glass filler instead of the bubbler, it is easily installed and ideal for public buildings, hospitals, offices, nursing homes, school and sports centres.

Services

Water inlet: 15 mm (1/2" BSP) brass line strainer
Waste: 32 mm multi-fit trap.

Construction

Casing in heavy gauge steel with integral mounting points for easy installation.
Removable access panel for possible maintenance to plumbing.

Packaging

Dimension: 1020 x 480 x 300 mm
Weight: 19 kgs
